## Floodlighting - Portable

### PORTABLE FLOODLIGHTING

MEGASTAR is a powerful, portable, rechargeable floodlight.

- Very strong but lightweight
- Weatherproof and silent
- Quick and easy to assemble
- No planning permission required
- c/w 38 A/h power pack, tripod, charger, carry bag and stability ground pegs

Code: 4550

"What a fantastic new product! We are now able to carry out our Rugby training and Football practice at night - as well as play Lacrosse. The Megastar is so easy to operate and very effective"

Angela O'Rourke  
Director of Sport  
Manor Preparatory School,  
Abingdon

4 x 36W  
Fluorescent tubes  
(equivalent to 1000W tungsten light)

"I am very impressed with the Megastar floodlights that Ram have introduced - an ideal way to light a small training area. We will be purchasing more next year!"

Kevin John, Chairman - Mini's Dartmouth RFC

Perfect for lighting a small training area

The Ram Starlite range of units consist of sectional galvanised, telescopic masts operated by a single automatic brake hand winch. All are mounted on a rugged purpose built, two wheel, road-going trailer. Units are capable of operating in wind speeds in excess of 60mph. Weatherproof floodlights can be individually adjusted both vertically and horizontally to any angle before erection.

### Benefits

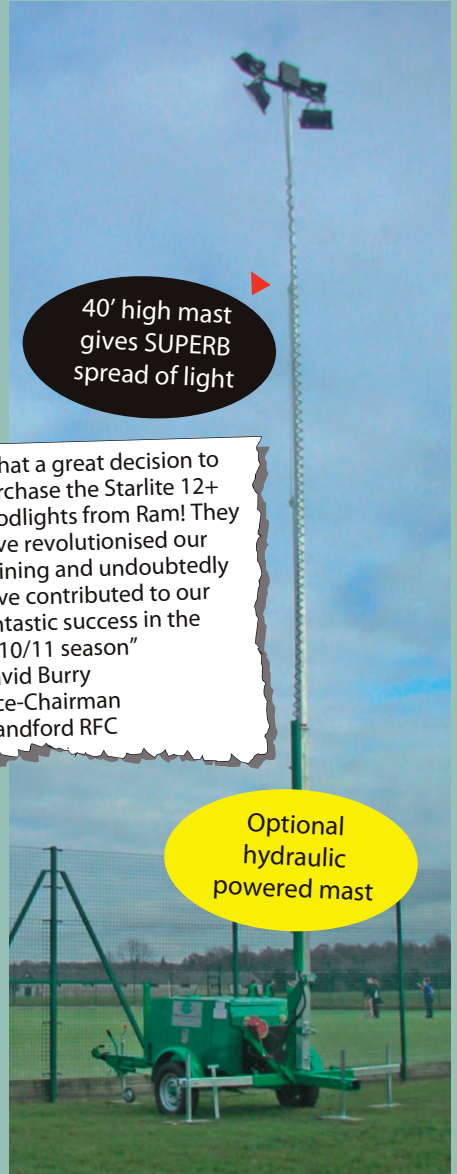

- Easy to move – training in different areas
- Other needs e.g. Car Parking, Barbecues, Club/School functions
- No planning permission required

### THE MOST POPULAR MODEL!

#### RAM STARLITE 12+

12 metre hand-winch telescopic mast with 4 x 1000 watt metal-halide lights with 3 cylinder, 230/115 volt, 1500rpm water-cooled, electric start diesel generator, enclosed with a noise-reducing canopy.

NB: 64 litre diesel tank giving approximately 30 hours of constant running.

40' high mast gives SUPERB spread of light

"What a great decision to purchase the Starlite 12+ floodlights from Ram! They have revolutionised our training and undoubtedly have contributed to our fantastic success in the 2010/11 season"  
David Burry  
Vice-Chairman  
Blandford RFC

Optional hydraulic powered mast

## Floodlighting - Mobile

### RAM STARLITE 10

10 metre hand-winch telescopic mast with 4 x 1500 watt tungsten/halogen lights with 2 cylinder, 110 volt, 3000rpm air-cooled, recoil start petrol generator mounted on anti-vibration mountings.

NB: 16 litre fuel tank giving approximately 5 hours of constant running.

**Made to Order  
in UK**

"The Starlite 12+ floodlights have given a whole new lease of life to our training procedures, as we can now train in the evenings, which saves clashing with other school events during the day"  
Mike Pyrgos  
Master i/c rugby,  
Bryanston School, Dorset

"Absolutely fantastic - they've transformed training"  
Hugh McHardy  
Director of Rugby, Esher RUFC

Floodlighting - Mobile

## RAM STARLITE 7

7 metre hand-winch telescopic mast with 2 x 1500 watt tungsten/halogen lights with a Honda GX270, 5kva, 110 volt, 1 phase, 50hz alternator, air-cooled recoil start petrol generator, mounted on anti-vibration mountings.

NB: 6 litre fuel tank giving approximately 3.5 hours of constant running

2 x Ram Starlite 7s in use at Danes Hill School

Starlite 7

Laurence Gale, pitchcare.com, stated in Running Rugby magazine that: "Metal Halide (MBI), while more expensive, provide a good quality colour rendering and is the favoured choice for match lighting. The RFU currently recommend this system for both training and match standard systems"

### WHICH IS THE RIGHT LIGHT FOR YOU?

Code	Product	Pitch Coverage	Length	Width	Height	Weight	Power supply needed	Manual mast		Spare Bulbs
								With Generator	For connection to separate power supply	
STAR 12+	Starlite 12+	3/4 - Whole	4.94m (16'2")	1.72m (5'8")	1.49m (4'10")	820kg (1808 lbs)	5kva	€11,750	€6,875	€95 Metal-Halide
STAR 10	Starlite 10	1/3 - 1/2	4.13m (13'6")	1.37m (4'6")	1.48m (4'10")	535kg (1177 lbs)	10kva	€7,375	€4,950	€25 Tungsten Halogen
